- b. The application for a variance should be sent to the Commissioner of Labor and Workforce Development by registered or certified mail.
- c. The Commissioner of Labor and Workforce Development will review the application for a variance and may deny the request or issue an order granting the variance. An order granting a variance shall be issued only if it has been established that:
  - 1. The employer:
    - i. Is unable to comply with the standard by the effective date because of unavailability of professional or technical personnel or materials and equipment required or necessary construction or alteration of facilities or technology.

- d. A variance may be granted for a period of no longer than is required to achieve compliance or one (1) year, whichever is shorter.

- e. Upon receipt of an application for an order granting a variance, the Commissioner to whom such application is addressed may issue an interim order granting such a variance for the purpose of permitting time for an orderly consideration of such application. No such interim order may be effective for longer than one hundred eighty (180) days.
- f. The order or interim order granting a variance shall be posted at the worksite and employees notified of such order by the same means used to inform them of the application for said variance (see subsection (a)(5) of this section).

The Rule of Tennessee Department of Labor and Workforce Development Occupational Safety and Health, OCCUPATIONAL SAFETY AND HEALTH RECORD-KEEPING AND REPORTING, CHAPTER 0800-01-03, as authorized by T.C.A., Title 50.

#### IX. EMPLOYEE COMPLAINT PROCEDURE

If any employee feels that he is assigned to work in conditions which might affect his health, safety, or general welfare at the present time or at any time in the future, he should report the condition to the Safety Manager of Occupational Safety and Health.

- a. The complaint should be in the form of a letter and give details on the condition(s) and how the employee believes it affects or will affect his health, safety, or general welfare. The employee should sign the letter but need not do so if he wishes to remain anonymous (see subsection (h) of Section 1 of this plan).
- b. Upon receipt of the complaint letter, the Safety Manager will evaluate the condition(s) and institute any corrective action, if warranted. Within ten (10) working days following the receipt of the complaint, the Safety Manager will answer the complaint in writing stating whether or not the complaint is deemed to be valid and if no, why not, what action has been or will be taken to correct or abate the condition(s), and giving a designated time period for correction or abatement. Answers to anonymous complaints will be posted upon bulletin boards or other places of common passage where the anonymous complaint may be reasonably expected to be seen by the complainant for a period of three (3) working days.
- c. If the complainant finds the reply not satisfactory because it was held to be invalid, the corrective action is felt to be insufficient, or the time period for correction is felt to be too long, he may forward a letter to the Chief Executive Officer or to the governing body explaining the condition(s) cited in his original complaint and why he believes the answer to be inappropriate or insufficient.
- d. The Chief Executive Officer or a representative of the governing body will evaluate the complaint and will begin to take action to correct or abate the condition(s) through arbitration or administrative sanctions or may find the complaint to be invalid. An answer will be sent to the complainant within ten (10) working days following receipt of the complaint or the next regularly scheduled meeting of the governing body following receipt of the complaint explaining decisions made and action taken or to be taken.
- e. After the above steps have been followed and the complainant is still not satisfied with the results, he may

then file a complaint with the Commissioner of Labor and Workforce Development. Any complaint filed with the Commissioner of Labor and Workforce Development in such cases shall include copies of all related correspondence with the Safety Manager and the Chief Executive Officer or the representative of the governing body.

f. Copies of all complaint and answers thereto will be filed by the Safety Manager who shall make them available to the Commissioner of Labor and Workforce Development or his designated representative upon request.

#### XI. GENERAL INSPECTION PROCEDURES

It is the intention of the governing body and responsible officials to have an Occupational Safety and Health Program Plan that will ensure the welfare of employees. In order to be aware of hazards, periodic inspections must be performed. These inspections will enable the finding of hazards or unsafe conditions or operations that will need correction in order to maintain safe and healthful worksites. Inspections made on a pre-designated basis may not yield the desired results. Inspections will be conducted, therefore, on a random basis at intervals not to exceed thirty (30) calendar days.

- a. In order to carry out the purposes of this Ordinance, the Safety Manager and/or Compliance Inspector(s), if appointed, is authorized:
  - 1. To enter at any reasonable time, any establishment, facility, or worksite where work is being performed by an employee when such establishment, facility, or worksite is under the jurisdiction of the employer and;
  - 2. To inspect and investigate during regular working hours and at other reasonable times, within reasonable limits, and in a reasonable manner, any such place of employment and all pertinent conditions, processes, structures, machines, apparatus, devices, equipment, and materials therein, and to question privately any supervisor, operator, agent, or employee working therein.
- b. If an imminent danger situation is found, alleged, or otherwise brought to the attention of the Safety Manager or Inspector during a routine inspection, he shall immediately inspect the imminent danger situation in accordance with Section XII of this plan before inspecting the remaining portions of the establishment, facility, or worksite.
- c. An administrative representative of the employer and a representative authorized by the employees shall be given an opportunity to consult with and/or to accompany the Safety Manager or Inspector during the physical inspection of any worksite for the purpose of aiding such inspection.
- d. The right of accompaniment may be denied any person whose conduct interferes with a full and orderly inspection.

e. The conduct of the inspection shall be such as to preclude unreasonable disruptions of the operation(s) of the workplace.

- f. Interviews of employees during the course of the inspection may be made when such interviews are considered essential to investigative techniques.
- g. Advance Notice of Inspections.
  - 1. Generally, advance notice of inspections will not be given as this precludes the opportunity to make minor or temporary adjustments in an attempt to create misleading impression of conditions in an establishment.
  - 2. There may be occasions when advance notice of inspections will be necessary in order to conduct an effective inspection or investigation. When advance notice of inspection is given, employees or their authorized representative(s) will also be given notice of the inspection.

- h. The Safety Manager need not personally make an inspection of each and every worksite once every thirty (30) days. He may delegate the responsibility for such inspections to supervisors or other personnel provided:

## A Resolution approving a 100-year Lease to the Metal Museum for 1930 Poplar Avenue, also known as Rust Hall, the former Memphis College of Art building in Overton Park.

**Whereas** the National Ornamental Metal Museum (Metal Museum), a non-profit museum, desires to enter into a lease with the City of Memphis, for the purpose of renovating the building and operating a public museum for the benefit of Memphis and the wider community;

Whereas The Metal Museum's goal is to renovate Rust Hall into a public museum, preserving the mid-century building designed by acclaimed Memphis architect Roy Harrover, and increasing the number of people who are able to explore and experience the iconic building each year, furthering Overton Park Conservancy's vision to provide our diverse community the opportunity to explore, learn, create, socialize, and play. With expanded space for its programs in an accessible and visible location, the Museum anticipates serving approximately 80,000 visitors per year from all areas of Shelby Country and from across the globe;

Whereas the City of Memphis owns real property located at 1930 Poplar Avenue, Memphis, TN 38104 (the "Property");

Whereas from Fall 2018-Spring 2020, the City of Memphis Park & Neighborhood Department conducted community outreach and solicited proposals for Rust Hall. The selection committee, made up of 10 representatives from the City, private sector, and various Memphis non-profits, recommended that the Metal Museum be selected as the tenant. The Metal Museum presented in front of Mayor Strickland on June 17th, 2020, who recommend the Metal Museum move forward to council approval;

**Whereas** the Metal Museum has raised more than \$12M toward the renovation of Rust Hall as a public museum, and will further raise \$23M, including \$13M for the endowment, to ensure long-term maintenance of the building.

The museum will include art galleries and metal-working facilities. The Metal Museum, in support of equitable access to the building and programming, shall come to an agreement—within a reasonable time period after lease execution—to document, analyze and improve over time in the following exemplary ways: space access to local groups/organizations, Museum access to the

public, partnerships with organizations that attracts a diverse population, and provide a diverse array of community programming.

If approved, the Lease would include that the Metal Museum must commit to the following terms to ensure that the redevelopment and preservation of the Property is completed in a timely manner: 1) construction and redevelopment of the Building is completed and Tenant has occupied the Building within 24 months following the Lease Commencement Date, unless due to circumstances beyond the Museum's control; 2) if the Museum fails to redevelop this Property within 24 months of lease commencement, the Property will revert back to the City of Memphis with no recourse by the Metal Museum; and 3) the Metal Museum cannot assign its rights under the Lease without the express written consent of the City of Memphis.

*Now therefore, be it resolved* by the Council of the City of Memphis that the long-term lease with the Metal Museum on the above described property is hereby approved;

**Be it further resolved**, the City of Memphis Real Estate Department shall prepare and arrange for the execution of the lease and the Mayor of the City of Memphis is hereby authorized to execute said lease or any other documents necessary to complete the lease.

## Capital Improvement Budget - Defined

- The Capital Improvement Budget is the annual allocation to the Capital Improvement Program (CIP) that is set aside to fund major construction projects, acquire property, purchase equipment, and fund ongoing capital programs for the City.
- The CIP Budget is a one-year allocation. Adoption of the CIP budget by the City Council allows for the allocation of funds for the first year of the program, or in the case of carried-forward projects a reallocation of unappropriated funding. Specific language on how to appropriate and spend construction funds is contained in the CIP resolution.

## FY2021 CAPITAL IMPROVEMENT BUDGET G.O. BOND FUNDING

- The City's proposed CIP spending aligns with current mission critical projects, those that are considered essential to the health and welfare of our communities in this unprecedented environment, and those mandated by law.
- The FY2021 CIP Adopted Budget for General Obligation Bond (G.O.) spending was \$78,207,500.
- Adopted Budget was amended by City Council on July 7, 2020 to include \$7.5m of IT initiatives that were previously identified as CARES CRF expenditures, bringing GO bond funding to \$85,707,500.
